SUMMARY

I am a dedicated international student and Full-Stack Developer with over 3 years of hands-on experience in building dynamic, responsive web applications. My expertise lies in delivering high-performance websites, SEO-optimized solutions with a strong focus on user experience and modern web standards. Proficient in technologies such as JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap, HTML, CSS, Node.js, Express.js, and MongoDB. I specialize in creating mobile-responsive interfaces and writing clean, efficient, and maintainable code. With a collaborative mindset and a passion for continuous learning, I am eager to contribute meaningfully to development teams and grow within the tech industry.

PROFESSIONAL EXPERIENCE

iLearning Solutions | Full Stack Developer
August 2025 – *Present*
- Developing modern web applications with Next.js
- Creating responsive, accessible UIs with React & Tailwind
- Integrating APIs and managing databases
- Optimizing performance, SEO, and deployments
- Contributing to projects through teamwork and collaboration

Americold Logistics | Forklift Operator & Ambient Picker
November 2024 – Present
- Operate forklifts to move, stack, and organize inventory.
- Pick, scan, and prepare orders for shipping.
- Restock inventory and maintain warehouse cleanliness.

PROJECTS

Car Vault | *Car Selling Website*
Website Link: https://car-vault.web.app/
Description:
A full-featured MERN stack car-selling platform with Google Authentication. Logged-in users can browse individual car details, place orders, manage their own bookings, and submit reviews via a personal dashboard. Admins have additional control to manage user reviews and order records.
Key Features:
- Google login authentication (Firebase)
- Dynamic car listing and detail views
- User dashboard for order tracking and reviews
- Admin panel for managing orders and user reviews
- Reviews displayed on the homepage
Technologies Used:
React, CSS, Material UI, Node.js, Express.js, MongoDB, Firebase, Heroku

Food Club| *Online Food Ordering Website*
Website Link: https://food-club-f9921.web.app
Description:
A MERN stack-based food ordering website where customers can browse menus, place orders, and submit reviews through a personal dashboard. Admins can manage orders and reviews. Includes secure Google login and JWT-based authorization.
Key Features:
- Menu browsing with easy food ordering
- User dashboard for orders and reviews
- Admin panel for order and review management
- Secure authentication with Google and JWT
Technologies:
Vite, React, Node.js, Express.js, MongoDB, Firebase Authentication, JWT, Tailwind CSS, DaisyUI

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900)
- Covered AI workloads and concepts, including machine learning, computer vision, natural language processing (NLP), and generative AI using Microsoft Azure services.

Information Technology Specialist: Python Programming
- Focused on core Python concepts such as data types, control structures, loops, functions, and object-oriented programming.

Complete Web Development Course with Jhankar Mahbub
- A comprehensive full-stack development course covering modern web technologies and real-world project development.
